

4/26/11 MAJOR CAPITAL IMPROVEMENTS STARTING AT CANAAN FAIR SPEEDWAY

Canaan Fair Speedway is pleased to announce that several major capital improvement plans have been approved for the track, and construction will get underway the week of May 2nd.

Track owners, Chick and Sandy Henry have approved a major paving project in the pit area which will eliminate a lot of dust and dirt that has to be addressed weekly with a water truck. Paving will be done from the rest area in the pits, to the several junction roads and the pit lineup loop. The paving will be done by Wilk's Sealcoating out of Rutland, Vermont. Another major improvement will include eleven new slab parking spots, much needed due to the growth that is happening at the track. The other major new project is the addition of a brand new electronic scoring loop on the main straightaway on the asphalt track. This loop processes electronic computerized information which many touring series utilize.

All of these improvements are scheduled to be completed by opening day, May 6th, weather permitting. For more information on these new improvements, and general information about Canaan Fair Speedway, visit the tracks website at www.canaanspeedways.com, or call the track hotline at 603-523-4502.

Canaan Fair Speedway's are located on Orange Road, just off of Route 118 in Canaan, New Hampshire.
