

CANAAN FAIR SPEEDWAY

RAIN OUT POLICY FOR THE GRANDSTANDS AND PIT AREA

Rainout policy for Canaan Grand Stands:

A night of racing is considered complete when the heat races and 1 feature event is deemed complete. If the event is rained out you must have your rainout ticket that has to be picked up at the ticket booth when you leave to be able to enter the next event at no charge.

If you do not have a rainout ticket you will be required to pay full admission the following week. The rain date pass is only good for the following event and has no value at any other time.

Rainout policy for Canaan Pit area:

A night of racing is considered complete when the heat races and 1 feature event is deemed complete. If a feature is stopped for any reason and cannot be run that evening, it will be the first event the following week picking up where it was stopped from and run the normal allotted laps, this will only be for the race that has been started.

If you do not run your feature event you will be awarded your qualifying points and extra monies will be added to your extra distance race. If rainouts continue after your extra distance race extra monies will be added to the championship night purse.

In the event of a rainout you must save your wristbands to enter the following week at no charge. If you do not have the proper wristband you must pay the admittance fee. If for some reason you cannot make the next event contact Dave Lescord that night for a pass.

If you do not run your feature event and the night is considered a complete night you will be awarded your qualifying points the next week and extra monies will be added to the extra distance race night payout. If rainouts continue and a show is considered complete, monies will be added the championship nights payout in the following manner. ½ purse payout for Bandits, Outlaws, Pures and Super Streets, Pro Stocks will have \$100 added to each position per rainout.

Example - If we have 3 rainouts prior to your divisions extra distance race you will have 1 ½ times your purse added to your regular nights purse for a total of 2 ½ times your regular payout. \$200 to win would be \$500 to win.

Example Prostocks – If we have 3 rainouts prior to your divisions extra distance race you will have \$300 added to your finishing position. \$130 for 24th would be \$430 for 24th.
