

**2010  
CANAAN FAIR ASPHALT SCANNER POLICY**

**TRACK FREQUENCY 151.6250**

**Scanners are mandatory in all divisions except Pro Stocks and Super Streets. They are mandatory in Pro Stocks and Super Streets if you do not have two way radios. Scanners must be on track frequency only during race events. Anyone caught being on another frequency during an event will be disqualified from the event and receive a four week suspension, and a fine of \$250 which must be paid before returning. Absolutely no two way radios are allowed in any other division except Pro Stocks and Super Stocks.**

**PURCHASING A SCANNER**

**When purchasing a scanner, make sure it will accept the track frequency, 151.6250. Always keep your directions in your toolbox, as it will come in handy for programming, set-up and troubleshooting.**

**Inexpensive scanners work fine. Just make sure you find a good set of earbuds, and duct tape over ears on race day. Keep ample supply of batteries on hand.**

**Scanners can be found at Radio Shack, Walmart and online. If going on line simply enter “cheap radio scanners” in your search box and it will bring up several alternatives with scanners ranging from \$49.95 to ????**

**All scanners are the sole responsibility of the race teams.**
